DETAILED ACTION

1. Claim 13 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 16-21, directed to the species of method having the steps of measuring real and imaginary components of an excitation voltage and measuring complex components of sensed current at a sense plate of the parallel plate no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Claims 13-21 and 27-32 will be examined.

Allowable Subject Matter

2. Claims 13-21 and 27-32 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest a method of grain moisture sensing and measurement having the step of selecting a frequency from a plurality of

frequencies; applying the frequency to a parallel plate cell filled with grain; applying the frequency to a reference, as recited in the independent claim 13; and method having the step of measuring real and imaginary components of an excitation voltage having a frequency applied to a driven plate of a parallel plate cell; measuring a second complex admittance of the reference; as recited in the independent claim 16 and in combination of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
